THE TROUBLE IN CHINA

Washington Diplomats Say Manchuria the Danger Point.

RUSSIA IS OPPOSED.

Great Britain, Germany and Japan Give Notice That Manchuria Convention Is in Disfavor—Tien Tsin Squabble Unsettled.

New York, March 18.—According to advices received at Washington the diplomats there say that Manchuria and not Tien Tsin, is the danger point to the Chinese situation. These gentlemen assert that Great Britain, Japan and Germany have given Russia to understand that they will regard with disfavor the signing of the Manchurian convention. It is further stated that if the convention is signed a vigorous protest will be made by these powers, and should this be not effectual more aggressive measures will be taken.

War talk is deplored in American official circles, where it is well understood that a conflict between the powers will precipitate the dismemberment of China, which the president and Secretary Hay are trying to prevent. Great Britain, Germany and Japan are suspicious of the St. Petersburg government, notwithstanding its protestations of good faith, and that government it is believed will abandon the convention with China rather than engage in war.

It is stated that the only danger in the situation at Tien Tsin lies in the antipathy of the British and Russian troops for each other. The London and St. Petersburg governments, however, say they will not allow any clash to occur in that part of China, that might involve the two countries in war.

STILL THREATENING.

British and Russian Soldiers Face Each Other Determinedly.

Tien Tsin, March 18.—There is no change in the situation developed by the Anglo-Russian railway dispute here. The Russian and British forces are still represented by small detachments with officers, encamped on opposite sides of the railway siding. The utmost friendliness is exhibited toward each other by the opposing parties. It is the intention of the legation to reduce the guards to 27 on each side to prevent a collision during the negotiations. A Russian general has arrived from Peking.

Owing to the persistent rowdiness of the French soldiers in the British concession the British authorities have been reluctantly compelled to forbid the French to enter the concession unless on duty. Major Hoekler of the British forces was assaulted Sunday afternoon in the French concession.

Situation at Tien Tsin.

Tien Tsin, March 18.—The Anglo-Russian dispute is unchanged. French troops are quieter. Over 40 arrests have been made.

May Withdraw Their Troops.

London, March 18.—On the highest official authority the Associated Press is authorized to announce the difficulty at Tien Tsin between Russians and British over the construction of a railroad siding in the territory claimed by both will probably be solved by the withdrawal of both British and Russian troops from the ground in dispute.

There is a disposition here to think too much has been made of the Anglo-Russian incident at Tien Tsin and a more hopeful view of the affair is now taken here. This is aided by the statement in Morrison's dispatch from Peking which is taken to mean that the combined efforts of interested powers are causing St. Petersburg to check and tendency of undue aggressiveness on the part of Russian representatives in China.

Cool Reception in Russia.

Berlin, March 18.—Parliamentary circles relate that General von Werder who was recently sent on a special mission to St. Petersburg, this time met with a cool reception at the Russian capital and that the private mission which Emperor William had intrusted to him and which he intended to explain away all misunderstandings that have arisen lately had practically failed. It is understood that Count Lamdorf, the Russian minister of foreign affairs, also keenly questioned General von Werder regarding German agitation in favor of annexation of Austria's German speaking province.

Missouri Town Burning.

St. Louis, March 18.—A special to the Post-Dispatch from DeSoto, Mo., says Bismark is on fire. The indications are that one-half the town will be burned, including hotels, about 10 business houses and the Iron Mountain railroad station. All telegraph and telephone communication is cut off. The fire started in the southern part of the town and a very strong wind is spreading the flames rapidly. The houses are all frame and there is no fire

department in town. Bismark is 75 miles from St. Louis on the Iron Mountain road and has a population of 750 inhabitants.

Jessie Morrison Gives Bond.

El Dorado, Kas., March 18.—Miss Jessie Morrison's bond of \$5000 has been approved and she was given her freedom again. The bond is one of the strongest ever given in this county. Miss Morrison still refuses to talk about the case—the murder of Mrs. Olin Castle, for which she was tried last fall.

as a candidate for the office of alderman of the city of Bryan at the ensuing April election.

The wheat farmers have their troubles also. A small bug is seriously damaging the Collin county wheat crop.

A Caldwell special says: Mr. R. F. Pool of Cameron came into Caldwell yesterday from Rita, Burleson county, where he has been for several days past writing up and taking leases on oil land around Rita. He secured over 10,000 acres for a syndicate worth over \$5,000,000, and they expect to begin boring at an early date. Part of Mr. J. R. Collier's land across the Brazos river in Robertson county, is included in the leases.

Representative Looney of Leon county tells the following good story of St. Patrick's Day, which, incidentally, illustrates Irish character: "The 17th of March is the day celebrated, but it is really not the anniversary of St. Patrick's birthday. The patron saint was born on the night of March 8, somewhere near midnight. For many years it was a matter of dispute as to whether the 8th or the 9th should be celebrated, and the good people fought each other all over Ireland with sticks and stones, seeking to convince each other. Finally a wise man came forward, who said: 'Why we can easily settle that matter. Some of you say the 8th, others the 9th. Let us add them together and call it the 17th.' Ever since then the 17th of March has been celebrated as the anniversary of the birthday of St. Patrick."

NEW CANAL SCHEME.

It is to Empower the President to Acquire One of the Routes.

Washington, March 18.—If the view of the administration will be supported by the next congress the president will obtain discretionary authority to acquire either the Nicaragua or the Panama canal route. On this account the stock of the Panama canal has risen since the adjournment of congress. Several prominent members of the senate foreign relations committee cordially favor the idea of empowering the president to choose the route he thinks the more advantageous, although the bill which passed the house and was pending before the senate during the last session provided for the adoption of the Nicaragua project.

Secretary Hay has requested Mr. Silva, the Colombian minister, to submit a formal memorandum embodying the verbal proposals regarding American acquisition of the Panama canal route which were submitted recently. Mr. Corea, the Nicaraguan minister and Mr. Calvo, the Costa Rican minister, both of whom have worked energetically to promote the Nicaraguan canal, will leave next week for their respective countries and will return charged with new instructions relative to the concessions their governments are willing to make the United States.

All the diplomats wore levee dress with orders and decorations with the exception of Ambassador Choate, who wore an ordinary evening dress. Foreign Secretary Lord Lansdowne introduced the visitors to the king, who was attired in a field marshal's uniform.

He will probably die.

AMERICAN CONFERENCE.

All Republics Will Be Represented at the Meeting in Mexico.

Washington, March 18.—Responses have been received from practically all the South and Central American republics accepting the invitation to participate in the conference of American republics which is to be held in the City of Mexico next October. The preliminary of the congress has been directed from Washington as the United States government has taken great interest in the matter and has had the cooperation of all the representatives of the South American countries at the national capitol. Several of the republics have chosen delegates.

The personnel of the delegates from the United States is beginning to attract attention and the tendency is that at least one of the delegates from this country shall maintain some official relation to the state department. In the former congress held in Washington Mr. Blaine was a conspicuous figure and the southern republics are desirous that there be like prominence at the coming congress. Among those informally mentioned are Assistant Secretary of State Hill, Director Rockhill of the Bureau of American Republics and John Bassett Moore, who was assistant secretary of state during Judge Day's administration of the state department.

Arbitration promises to be the most prominent question in the congress. South American republics have shown a strong inclination towards arbitration in the settlement of the question of boundary differences and there is a tendency to adopt this method, which it is believed will avoid further conflicts and their attendant menace of war. Some of those interested in the congress have hoped to see it bring results similar to The Hague conference, with a permanent court of arbitration for the western republics.

Besides arbitration the congress will deal with commercial affairs of interest to this country and the other republics, developing means for a thorough cooperation and mutual expansion of trade. To some extent also, the gathering will have a broad political aspect indicating the fraternity which exists among the republics of the western hemisphere.

KILLED BY HER DOG.

The Throat of a Woman Terribly Lacerated While in an Epileptic Fit.

New York, March 18.—Mrs. Carrie Cobus met death in a shocking manner here Saturday night being killed by her dog. Mrs. Cobus was subject to epileptic fits. Her constant companion was a fox terrier of unusual intelligence. Mrs. Elizabeth Broadhead, Mrs. Cobus' mother, says her daughter went out into the kitchen about 7 o'clock. A few moments later Mrs. Broadhead heard the dog barking excitedly. The mother ran out and found her daughter lying on the floor. She knew it was an epileptic attack and dashing a pitcher of water into her daughter's face she ran into the hall and screamed for help.

Philip Rockefeller, living near by, heard her and ran to her assistance. They went into the room where Mrs. Cobus lay and there saw a horrifying spectacle. The pet terrier, seeing his mistress in agony, appears to have gone mad. It flew at the prostrate woman as she writhed on the floor and repeatedly attached her, burying his teeth in her throat and severing the jugular vein. When Rockefeller tried to tear the maddened brute away it clung to the dying woman with terrible tenacity. He finally got the animal loose. It then attacked the mother and man, but they beat it off. A physician was summoned but Mrs. Cobus had bled to death. The dog disappeared in the streets.

AMMONIA TANK BURST.

Two Men Were Suffocated and Others Were Saved by Hard Work.

New York, March 18.—The steamship New York reached her dock at 10 o'clock Sunday night after a passage in which an explosion of an ammonia tank in the refrigerating apparatus and a broken shaft caused loss of life and much damage to the vessel.

As a result of the explosion 15 men were overcome by the fumes of ammonia on Thursday morning last and so seriously prostrated that two deaths followed. Both victims were buried at sea. Several others were confined to the ship's hospital for some time and one was still in the hospital when the ship was docked.

Cashier Johnson Arrested.

Columbus, O., March 18.—Charles A. Johnson, cashier of the First National bank of Niles, Mich., was arrested here Sunday on a charge of wrecking that institution. He was placed in the Emergency hospital at the police station because of his physical condition. He is badly broken in health, much emaciated and very nervous. He expressed a willingness to return to Michigan at once.

Killed by a Runaway.

Rodays' Condition.

Paris, March 18.—M. Fernand de Rodays, who was wounded in the thigh Saturday in a duel with Count Boni de Castellane, continues slightly feverish, but there is no special anxiety concerning his condition.

The Home Guard's Close Call.

"We were on our dress parade last night;
the boys looked slick and smart,
and their rifles all were shining bright;
the colonel marched us around the hall
till my feet today feel sore;
with his orders, which I can't recall,
he drilled us an hour or more."

"He stood in line; then the colonel said,
'It is plain to me, my men,
that Uncle Sam there is trouble ahead;
he will need defenders again,
and so perhaps we may get a call
to shoulder arms, march away,
the fight for the flag and maybe fall.'"
A feeble voice yelled, "Hooray!"

the men gave him a most killing glance,

Break in Cotton Market.

New York, March 18.—Political complications with Russia relating to the Chinese situation was, according to private cables, largely responsible for the severe break which occurred in the English market at Liverpool after opening 1 point lower, suddenly dropped to 4½ points below the closing point Saturday for that market. Other private cables said the weight of cotton offered from the south was the leading factor in the unsettled condition of the foreign market. The market has opened easy at a decline of 6 to 11 points with heavy trading—particularly in May, June and July contracts.

1,000,000 WOMEN RELIEVED

Reports received show that Wine of Cardui has brought permanent relief to 1,000,000 suffering women in the last few years. Because of Wine of Cardui, thousands of sufferers, seemingly on the way to premature graves, are now healthy women taking an active interest in the duties of life. Mrs. Mitchell was declining in health when Wine of Cardui "performed a miraculous cure" in her case. She suffered terribly with the agonies of falling of the womb, leucorrhoea and profuse menstruation. The weekly appearance of the menses for two months sapped her vitality until she was little better than a physical wreck. Her nervous system gave way under the terrible pain and aggravation. Then came the trial of Wine of Cardui and the cure. Mrs. Mitchell's experience ought to commend Wine of Cardui to suffering women in words of burning eloquence. The Wine is within the reach of all. Woman who try it are relieved. You can get as much benefit as Mrs. Mitchell received. Ask your druggist for Wine of Cardui. Send to the laboratory for the medicine if he tenders you a substitute.

WINE OF CARDUI

South Gaston, N. C., May 29, 1899.
Wine of Cardui and Theodor's Black-Draught have performed a miraculous cure in my case. I have been a great sufferer from falling of the womb and leucorrhoea, and my menses came every week for two months and became very painful. I was in a bad condition. My husband induced me to try Wine of Cardui and Black-Draught, and now I have no pain. The leucorrhoea has disappeared and now I am in perfect health. Mrs. WILLIE MITCHELL.

FUNERAL OF HARRISON

Remains of the Ex-President Laid
at Rest at Indianapolis.

CEREMONIES SIMPLE.

More Than Fifteen Thousand People
Gathered to Pay Their Respects
to the Dead—Many Promi-
nent Persons Present.

Indianapolis, March 18.—The remains of Benjamin Harrison were interred in the family lot in Crown Hill cemetery Sunday afternoon. Close by the side were the members of his family, President McKinley and other visitors of distinction and the more intimate friends of General Harrison. Back a distance of 50 yards behind ropes, guarded zealously by a large force of police, stood with uncovered heads at least 15,000 people, many from adjoining states who came to pay their last respects to the dead. It is doubtful if any public man was borne to his last resting place among so many manifestations of respect.

The services at the church and grave were simple in the extreme. At the Harrison home before the remains were taken to the First Presbyterian church there were brief exercises for the members of the family and the more immediate friends of General Harrison. Possibly 150 people were present. Mrs. Harrison did not appear, but remained in her room until it was time to leave for the church.

President McKinley, accompanied by Governor Durbin, called at the house at 1 o'clock in the afternoon. At about the same time came the members of President Harrison's cabinet. Dr. Haines read a short passage from the Scriptures and made a few remarks touching the life and character of General Harrison, as did Dr. Nicoll of St. Louis, and after a brief prayer by Dr. Haines, the services were over.

Word was then sent to Mrs. Harrison and at 2 p. m., the honorary pall bearers General Benjamin F. Tracy of New York, John Wanamaker of Philadelphia, W. H. H. Miller of Indianapolis, John W. Noble of St. Louis, Charles Foster of Fostoria, O., General Lew Wallace of Crawfordsville, Ind., Judson Harmon of Cincinnati and William A. Woods of Indianapolis, came slowly down the walk leading to the street. After them came the active pall bearers bearing the casket. Following the casket were the members of the family and after them the distinguished guests followed by friends.

The church was packed and a great crowd outside. Rev. Drs. Haines and Nicolls conducted the services at the church.

At the cemetery the services were short, merely consisting of reading the burial service of the Presbyterian church.

The floral offering was the greatest and finest ever seen in this city.

Funeral of T. S. Smith.

Hillsboro, Tex., March 18.—The remains of Attorney General T. S. Smith were interred in the old cemetery Sunday in the presence of the largest crowd ever seen at a burial here. The remains were escorted from the residence of Nelson Phillips to the Methodist church by the Knights of Pythias, the Tom Smith Rifles, the fire department, Gov. Sayers and other state officials and Sen. J. W. Bailey. The funeral sermon was preached by Rev. C. R. Wright. After the sermon the body was turned over to the Masonic fraternities and they concluded the services at the grave.

Confessions Extorted from Them.

Constantinople, March 18.—At the first day of the trial of 19 Bulgarians accused of belonging to a revolutionary committee at Sofia and of fomenting disorder in Salonica, Monastir and Kersova recently begun at Salonica, a sensation was occasioned by a declaration by two of the accused that the confessions previously made by them were extorted by the use of the bastinado and other ill treatment, to which they were subjected while in prison. They now deny the charges brought against them.

Mrs. Stuart Chisholm Dead.

New York, March 18.—Mrs. Stuart N. Chisholm is dead at her home in this city as a result of a cold she contracted at the inaugural ball two weeks ago. Before her marriage in January, 1900, to Stuart N. Chisholm, who is one of the vice presidents of the American Steel and Wire company, Mrs. Chisholm was the widow of H. P. Card, a cousin of Mrs. Mark Hanna. Mrs. Chisholm was 53 years old. She was known in Cleveland, O., as a woman of unusual beauty.

Limit of Wireless Telegraphy.

New York, March 18.—Signor Marconi, the inventor of wireless telegraphy, in an interview announced that so far as known 200 miles constituted the present limits of wireless telegraphy. He said that he would not say that it was impossible to flash signals to Mars, but that he would prefer to see it done before attempting to discuss the proposition.

All Rockefeller's Interest Absorbed.

New York, March 18.—A report is circulated here that all the interests of John D. Rockefeller in the iron business, including railways, mines and lake transportation lines are to go into the United States Steel corporation. His interests include the Lake Superior Consolidated Iron mines, which concern has a capital stock of \$50,000,000.

PHILIPPINE ADVICES.

People of Marinduque Oppose Being Attached to Tayabas Province.

Romblon Island, P. I., March 18.—The question of attaching the Island of Marinduque to the province of Tayabas has been discussed by the American Philippine commission on arrival here, and decided in the negative. The sentiment of the people favor forming a separate province. The population is 50,000 and was represented during the discussions before the commission by intelligent delegations from all towns on the island.

There are 300 insurgents still in the mountains of Marinduque, but otherwise the inhabitants are anxious for pacification of the island and accept American sovereignty.

Judge Taft announces that Captain Bandholz would be chairman of the various committees of natives formed to organize municipal law in the towns of Marinduque.

Judge Taft promised the commission would return and organize the province of Maranique.

Major Smith, commanding the American garrisons on this island, has issued an order requiring all natives to live in the five principal towns where the American troops were stationed. Those natives who continue to live in the country will be considered insurgents.

A few insurgents were recently killed or wounded near these towns and their supplies destroyed. The inhabitants of this island favor a drastic policy toward the insurgents.

The American Philippine commission will soon prepare recommendations to President McKinley on the character and form the general civil government to be established in the archipelago. The matter has as yet received only its formal consideration.

POLICE SAVED HIM.

Daniel Peters Almost Lynched at Chicago for Murder Committed.

Chicago, March 18.—As a sequel to a chicken theft, Charles Rinck was shot and killed by Daniel Peters here Sunday. Within ten minutes after the shooting a large crowd gathered at Peters' home and threatened to lynch him but the timely arrival of the patrol wagon with policemen prevented any mob violence. The cause of the quarrel was the theft of 15 chickens from Rinck's hen roost. Four of the missing hens were, it is claimed, found in Peters' hen coop. Rinck accompanied by his 4-year-old daughter started out to get a warrant for Peters' arrest. When near Peters' house he met Peters and accused him of stealing the chickens. Witnesses say Peters drew his revolver and fired four shots at Rinck, all taking effect.

While the fatal shots were being fired Rinck's baby girl clasped her father's knee too frightened to move. Her clothing was dyed crimson with the life blood of her father.

Safe Way to Watch Flights.

The colonel and I sat talking under a shade tree in front of the town post-office when a dogfight started down the street.

"Come on!" I said as I sprang up. "Come this way," replied the colonel as he seized my arm and drew me into a doorway.

"But I want to see the dogfight," I protested.

"Yes, I reckon you do, but you also want to keep clear of the shooting."

"Why should there be any shooting?"

"Because one dog has got to lick 't' other, and the owner of the licked dog ain't goin' to let it rest that way. There they go!"

Ten minutes later we stepped out, to find one man lying on the ground with two bullets in him and some people carrying away a second with half a dozen.

"Dogfights are bewtful affairs," said the colonel as we walked away, "but the safest way to see one in Kentucky is to wait till it's all over and the dead carried off."—Chicago News.

Put Money Aside.

Take 10 cents to the nearest available savings bank and deposit it to your credit. Keep it up until you have a dollar.

Don't wait to do this until you have a situation. Do it now. If you have change for car fare, walk.

This is the only way to save money. If you wait until your salary is raised, or until you happen to have an errand near the savings bank, you may be dead before you lay by a cent.

There is only one way to save money. That is to begin now.—New York Journal.

A Little Short.

At one of the railway construction works in Glasgow the other day a clergyman who takes a great interest in the members of his flock engaged at the cutting saw one of them entering a drinking place. He hailed him, but Pat simply looked and walked in. Waiting till he came out, the reverend gentleman accosted him thus, "Pat, didn't you hear me calling?"

"Yes, your ravin'ce, I did, but—but I had only the price of one!"—Exchange.

Couldn't Do the Impossible.

No, the citizen would positively not buy any of the hair restorer.

"Do you think you can make a monkey of me?" he hissed, with asperity.

"Oh, not at all," replied the vender cheerfully. "We don't pretend to be able to restore the hair lost in the process of evolution!"

An innocent bystander cracked a faint smile, but otherwise all was still. —Detroit Journal.
